Compatible printhead	EPSON/Ricoh G5 / Ricoh GH2220
Shelf life	12 Month
Product flash point	65
Apply lamp kind	LED
Particle precision	Less than 0.2 UM

Solvent	No
Product viscosity	25-35centipoise

Product Features

UV coating varnish liquid is mainly used in occasions with high requirements for wear resistance, scratch resistance, brightness and decorative effect. It has excellent leveling property, smooth surface, good brightness and high fullness. It can provide mirror leveling effect. Compared with the traditional coating process, its light curing property is faster, the construction is more convenient, and it can be cured at room temperature.

No bubbles

Does not turn yellow and hard
